**STATUS OF CLAIMS AND SUPPORT FOR
CHANGES OF CLAIMS (37 C.F.R. §1.173(c)) AND SPECIFICATION**

Sir:

In accordance with the requirement under 37 C.F.R. §1.173(c), Applicant submits this statement of the status and support for the additional claims, and also the support for the amendment made in the Detailed Description section of the original patent to remove a minor typographical error newly discovered.

AMENDMENT TO SPECIFICATION

In the Specification, col. 7, line 33, the words --do not-- have been inserted between "stations" and "simultaneously." This amendment merely corrects a simple typographical error and is therefore consistent with and supported by the disclosure in other parts of the Specification including at least col. 7, lines 29-32 and col. 5, lines 13-15.

STATUS OF CLAIMS

Claims 4-13 have been newly added.

Claims 1-3 have been issued in U.S. Patent No. 6,381,233 (hereinafter "the '233 patent"), from which the present reissue application is based.
